**TWITTER SUSPENDS ANTISEMITIC NATIONAL JUSTICE PARTY
ACCOUNTS**

***FIRST STEP IN THE COALITION FOR A SAFER WEB’S NATIONAL CAMPAIGN
AGAINST NJP***

FOR IMMEDIATE RELEASE

January 25, 2022

Today, [The Coalition for a Safer Web](#) (CSW) commended Twitter for suspending the promoted account of the antisemitic National Justice Party (NJP). NJP is an extremist white supremacist “party” which disseminates virulent antisemitic content on major social media platforms. NJP leaders organized the 2017 Charlottesville “Unite the Right” rally. Its leaders (who have been involved in violence against Jews) deny the Holocaust and promote antisemitic tropes intended to incite hate and violence against Jews and other minorities. Its so-called platform resembles the Nazi Nuremberg laws.

NJP’s acts are not limited to the web: its operatives have been identified by CSW at several grass roots Republican Party gatherings disseminating antisemitic, racist literature and recruit new members.

CSW commenced its campaign in NJP at the end of November, 2021.

On November 30th, CSW issued a [press release](#) urging major social media companies to purge NJP content from their platforms. CSW followed up with Twitter and with other platforms protesting NJP content because it irrefutably violates bans against antisemitic extremist incitement. CSW issued a subsequent [press release](#) on December 16, and dispatched a direct [appeal](#) to Twitter’s CEO and to members of Congress. CSW also urged national advertising industry executives to demand Twitter cease promoting major corporate brand ads on NJP’s Twitter account. CSW had uncovered FIFTY (50) major U.S. corporate brand advertisements

appearing on any given day on NJP's landing page and collateral supporter accounts -- another example of the inability of the digital ad industry to monitor where its ads land on social media.

Amb. Marc Ginsberg, President of CSW stated:

“The battle against hate and extremism on social media is never-ending. CSW is grateful to Twitter for taking swift action against NJP’s accounts. But this success is a first step in a broader national campaign to rid NJP of ANY social media access. NJP’s incitement of hatred and violence against America’s Jewish community and other minorities demands sustained and innovative measures. CSW calls on other concerned organizations and the U.S. Government to join us in our campaign against the NJP.”
